J1474A – HP Rackmount Console Switch, 1x8

Technical Data

Product Number
J1474A

Control multiple NetServers with a single monitor, keyboard, and mouse

The HP Rackmount Console Switch allows users to name, select, control, and operate all attached servers through an easy-to-use pop-up menu system.

Features

- An optional expansion kit gives a second user full access to all attached servers
- Firmware controlled, no buttons to push
- Cascades for use with up to 64 servers
- Hot Pluggable
- Flash upgradeable for fast and easy updates
- Multi Level Security
- Rackmountable in non-HP racks (Compaq, Chatsworth, and Wrightline)
- "Keep Alive" Feature safeguards servers from locking up when power to the switch box is lost.
- Purchase connecting cables separately. Gives customers a choice in both the length and the number of cables to purchase.
